## Sugar Factory "AGRANA Zucker GmbH-Tulln

Agrana is a big factory that has its sugar production in several countries, including Bosnia and Herzegovina and Austria.

Werner Zuser and Berndt Hammerschlag, two employees of the Agrana sugar factory Tulln, showed us the whole factory and explained how the sugar is extracted from the sugar beets, which consist of about 15% sugar and 75% water.

The second part of our visit was a presentation of Julia, an employee in a laboratory of the Agrana. She presented to us many interesting facts about sugar production and sugar ingredients in a food we eat every day.

The tour finished in a part of the factory where sugar was packed into differently designed boxes.

It was fun to have a chance to make our own packages of sugar.

## World of Tommorrow - Workshop

**World of tommorrow** was a great workshop that was organized and presented by our camp's guest and our Peter. The guests Marlies Begger, Wilhem Reismann and Claudia Lingner prepared activities that made us think about different values of peace, like communication, respect, understanding...

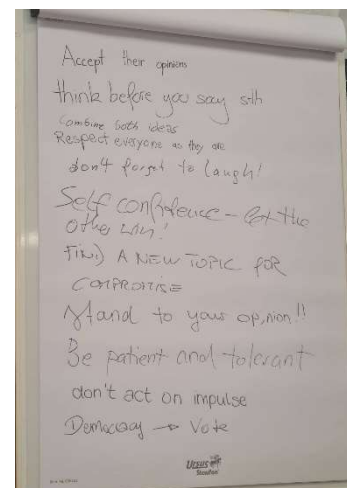

The workshop was very interesting and made us brainstorm about many interesting topics.

We had to imagine different situations where we had to negotiate, try to find compromises and solutions that make everyone in a discussion group happy.

We developed many ideas at the end of the workshop.

Each student listed important facts and suggestions for better communication with your good friends, in a group, in a team, within your family, in class etc. like:

don't act on impulse, find common solutions, accept defeat, compromise, and laugh...

We really enjoyed this workshop and it helped all teens to understand some very important things in life.

## Tim's Birthday and Our Free Time

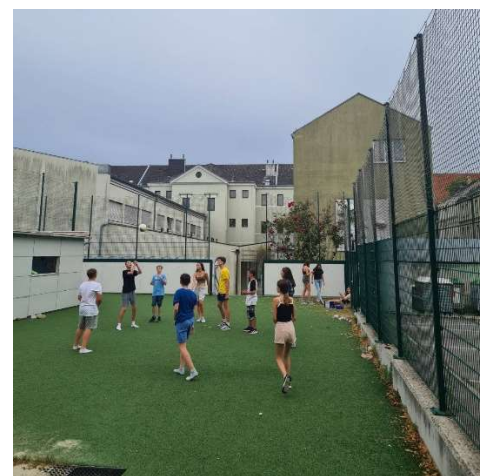

It was special day because Tim has his 13<sup>th</sup> birthday and we celebrated it together.

His mother prepared birthday cake, sweets, and juice. And Tim shared these gifts with all of us!

We surprised Tim with a happy birthday song accompanied by saxophone played by Tarik Midžić. After the celebration we had our daily pro and cons meeting.

HAPPY BIRTHDAY TIM

We really enjoy when we have some free time.

We like to spend it on the sports yard near our hotel and to walk to the city center.
